Direct Vent Gas Fireplace

Seattle Diamond-Fyre Gas Fireplace Features

Introducing the contemporary Seattle™ Diamond-Fyre™!

Your home is a reflection of your personal lifestyle. So why shouldn't your fireplace be the same? Just as furniture and objects of art are both functional and pleasing to the eye, so can be your fireplace design. Avalon's beautifully designed Seattle Diamond-Fyre gas fireplace featuring the revolutionary GreenSmart™ gas technology will let your personal expression shine through.

The linear flames and 564 square inches of fire viewing are the main focus of the Seattle Diamond-Fyre direct-vent gas fireplace. The design and craftsmanship is positively stunning, and the fire and glowing under-lit glass media is absolutely magical. Choose from either a simple black painted interior or pick the luscious black enamel interior that subtly reflects the fire in a myriad of patterns. You have the choice of three colors of reflective glass media for the under-lit firebox floor. - Platinum (white), Cobalt (blue) or Bronze. If your looking to make a statement with your fireplace then this stylish landscape fireplace will give your home the warmth and drama of a truly contemporary hearth and a more efficient heat source for your home.

The Seattle Diamond-Fyre will heat an area of 950 square feet with a maximum input of 20,500 Btus. The turn-down ratio of 75% to a low input of 5,100 Btus with natural gas or 4,200 Btus with propane provides great flexibility for year-round use. The Split-Flow ribbon burner allows the left and right sections to be shut off leaving only the center portion lit for times when the mood calls for a fire but the comfort level does not require a large heat output.

GreenSmart Fireplace Features

- Heater rated fireplace. Heat up to 950 sq. ft. Ideal for moderate homes or zone heating a portion of the house.
- LP Conversion kit included with fireplace at no additional cost.
- Linear, two-stage burner features tall flickering flames surrounded by a bed of under lite glass media.
- Choice of black painted or black enamel interior liners
- Choice of three colors of reflective glass floor media - Platinum, Bronze or Cobalt Blue
- Easy Heat/Flame Adjustment with a large high-to-low flame turndown ratio - up to 75%.
- Comfort Control™ that allows you to turn off the rear burner for less heat when desired for year-round enjoyment of the fire.
- Standard accent light glows up through the bottom of the glass media and gives the fireplace a dramatic impression no matter if the fire is on or off.
- Concealment panel hides all controls from view
- Built-in battery backup allows continued operation of your gas stove during power outages. Automatically switches back to AC when the power comes back on.
- 9 volt battery powered LED lit control panel automatically lights up when you lower the concealment panel - operates even during power outages.
- Choice of pilot ignition modes - GreenSmart™ Electronic Ignition for instant fire when you want it or Standing Pilot for colder climates where a heated chimney is needed to maintain the draft.
- Optional 150 CFM Convection Blower will increase the efficiency and rate of heat transfer from the fireplace into your home.
- Optional GreenSmart Remote Control gives you the choice of manual, thermostat or the efficient "Smart" thermostatic control of your fireplace. The GreenSmart remote allows you to control all of your fireplace's functions from the comfort of your couch!

Finish Options

Firebacks - Required

Firebacks are required on the Seattle Diamond-Fyre. You have the option of adding a simple black painted interior or the dramatic black enameled interior liner that subtly reflects the flame and glowing floor media in a multitude of patterns.

Black Painted Fireback, SKU #96100211

Black Enamel Fireback, SKU #96100210

Decorative Glass Media - Required

Beautiful decorative glass media comes in your choice of three colors. The reflective glass media is bottom lit with the adjustable accent light and with the flames gives the impression of millions of glowing shimmering diamonds.

Platinum
SKU: 94500580

Bronze
SKU: 94500581

Cobalt
SKU: 94500582

Wall Thermostat

The wall thermostat provides the ability to set the desired temperature that you would like for the room. The fireplace will cycle on and off to maintain your set temperature. The wall thermostat can be wired up to 25 feet away from the appliance and allows for easy hands-free convenience.

GreenSmart Remote Control

Adding the GreenSmart remote provides for the ultimate in easy operation of your fireplace. This revolutionary remote offers thermostat settings as well as the "Smart" thermostat setting that will modulate the flame up or down to meet your heat setting rather than on or off as other systems do.

Convection Fan

This 150 CFM fan enhances and speeds up the natural heat transfer around the fireplace and directs it back into your home. Fan must be installed at time of installation.

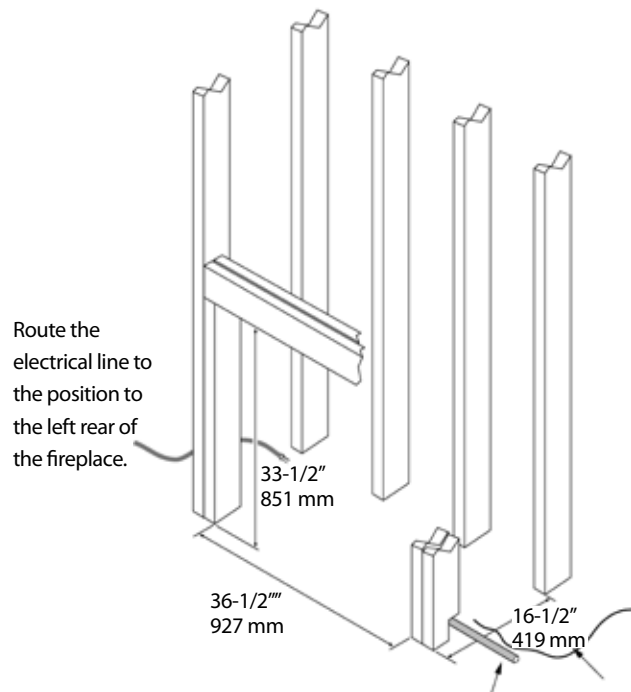

All Avalon firestyles are proudly made in the U.S.A.

Installation Specifications

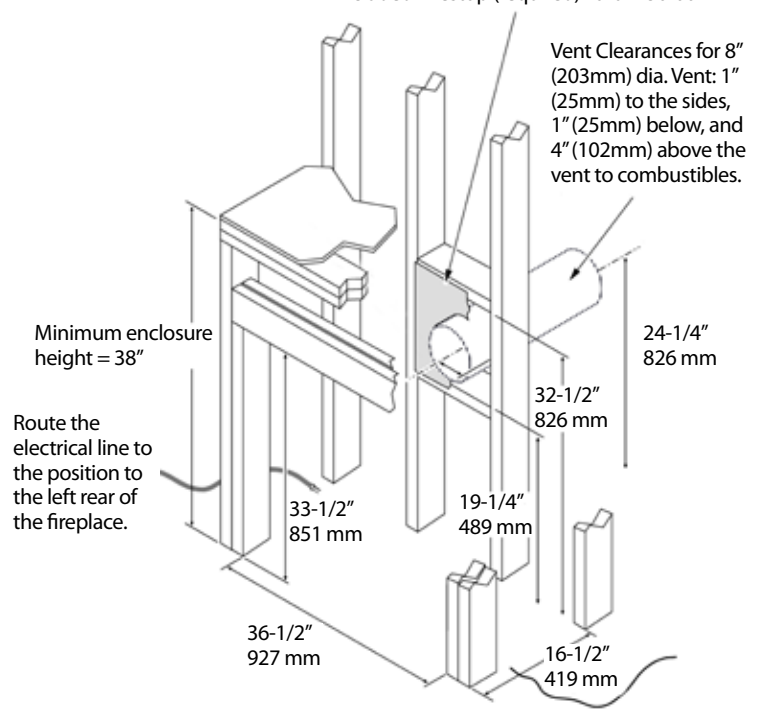

Always refer to the and use the Installation Manual for complete install information.

Minimum Framing Dimensions:

Top Vent

Rear Vent

Hearth Requirements:

A non-combustible hearth extension is not required. However, if the heater is installed next to the floor, we recommend a hearth to protect the flooring surface from discoloration.

Listings:
